SCFHS STANDARD: D.18.8, H.1

Patient Rights

- Receive respectful, equitable and culturally appropriate care.
- Receive understandable information about condition, options, risks and benefits.
- Participate in decisions and provide valid informed consent.
- Know that trainees participate in care under appropriate supervision.
- Expect privacy, confidentiality and a clear complaint process.

Patient Rights in Practice

INFORMATION

Know the care team and receive understandable information about the condition and options.

CHOICE

Participate in decisions, refuse treatment within applicable law and request a second opinion.

ACCESSIBILITY

Receive interpreter support and reasonable assistance for communication needs.

CULTURE AND BELIEFS

Express cultural and religious beliefs when they do not harm others or prevent safe care.

REPRESENTATION

Identify an authorized representative when the patient cannot communicate preferences.

CONCERNS

Use the complaint or grievance process and request ethics support when appropriate.
